

CSCI/ECEN 5673
Fall 2016
(Offered via BBA Library)

This course is offered via BBA library. You will have access to the recorded lectures and the class page on Moodle from Fall 2015. You will use the same class page on Moodle that was used for this course when it was offered in Fall 2015. Please enroll in this course on Moodle. Enrollment key is Fall2016DSBBA.

The following information supersedes the information available on the class page on Moodle. Please pay close attention to the new submission deadlines.

Here are the deadlines for your assignment submissions:

Homework 1: September 18, 2016 (5.5%)
Homework 2: October 02, 2016 (9%)
Homework 3: October 23, 2016 (11%)
Homework 4: November 13, 2016 (14.5%)
Homework 5: December 04, 2016 (5%)

Project proposal: September 11, 2016
Project First Work-in-Progress Report: September 28, 2016
Project Second Work-in-Progress Report: October 30, 2016
Project Final Report: November 27, 2016

Paper Presentation: Date to be announced

Take Home Final Exam: Due on December 11, 2016

Submission Details: All homework and programming assignments must be submitted by the due date via the submission links provided on the class page on Moodle. No late submissions are allowed and no extensions will be given unless there is a valid excuse.

Homework 1 Question 3, Homework 2 Question 4, Question 7 and Homework 4, Question 10 are programming questions. You may choose to work on these programming questions as a team of two students and submit a single solution.

Course project is a team project. You may work in a team of up to four students for your project.

Each of you will present one research paper. We will schedule a time sometime in October for this.

You can contact the instructor anytime via email mishras@cs.colorado.edu
